BETHELL HOSPICE
Music Therapy

An accredited Music Therapist collaborates with clients and families to provide music experiences that safely and purposefully address goals of care by offering comfort, connection and support.

Music can help evoke memories, foster communication when words are hard to find, offer families a meaningful way to connect, and be an effective tool for relieving pain, anxiety and isolation. In the hospice setting, music therapy supports the whole person's body, mind and spirit.

Dates:	Please contact us for availability.
Time:	Sessions available by appointment only.
Location:	In person at Bethell Hospice or virtual options available.
Cost:	Thanks to the generosity of our donors, there is **no cost** to participate, but registration is required.
Facilitator:	Stephanie An, Board certified and accredited music therapist (MTA, MT-BC, NMT, EHP)
